Rulemaking 19-11-009
(Filed November 7, 2019)

**NOTICE OF AVAILABILITY
CALIFORNIA INDEPENDENT SYSTEM OPERATOR CORPORATION
2022 FINAL LOCAL CAPACITY TECHNICAL STUDY**

Pursuant to the December 12, 2020 Assigned Commissioner's Amended Track 3B and Track 4 Scoping Memo and Ruling, the California Independent System Operator Corporation (CAISO) hereby provides notice to the service list for Rulemaking 19-11-009 that its 2022 Final Local Capacity Technical Study has been posted publicly on the CAISO's website. The Final 2022 Local Capacity Technical Study can be accessed at the following address:

<http://www.caiso.com/InitiativeDocuments/Final2022LocalCapacityTechnicalReport.pdf>.

In addition to providing the 2022 Final Local Capacity Technical Study, this filing also provides the CAISO's responses to stakeholder comments on the draft local capacity requirement (LCR) results. As part of its annual Local Capacity Technical Study process, the CAISO provides an opportunity for stakeholders to provide comments on its draft LCR results prior to publishing the Final Local Capacity Technical Study. The CAISO responds to each stakeholder comment in the course of the LCR process. The CAISO provides its response to stakeholder comments at: <http://www.caiso.com/InitiativeDocuments/ISOResponsestoComments-Final2022and2026LocalCapacityTechnicalStudyResults.pdf>.

In addition, the Commission provided parties an opportunity to file comments on the draft LCR results in this proceeding. The CAISO notes that several parties filed comments on the draft LCR in this proceeding, but failed to provide comments in the CAISO's stakeholder process. The CAISO includes responses to these comments at the line provided above. In the future, the CAISO encourages parties to file any comments on the draft LCR results in the

CAISO stakeholder process to ensure the CAISO has adequate opportunity to fully review and respond to the comments.
